

MedSpa IV Menu Brochure

Supercharged - \$129.00

Focus on wellness, longevity, metabolic function, overall health.

This IV is a unique combination of multiple essential vitamins across the entire spectrum and supports a whole mind and body approach to wellness. Combined with important electrolytes, fluids, and an extra B12 punch, this will correct any imbalances and keep you on an even keel.

B Complex, Vitamin B12, electrolytes

The Equalizer - \$169.00

Focus on rehydration, energy boost, recovery from sun exposure, exercise.

This IV is designed to restore electrolyte balance, rehydration and for added energy. Also great for skin health and collagen production. It contains vitamin cofactors that typically get depleted during exercise, recent illness or during times of stress or poor nutrition.

Vitamin B12, Thiamine, Glutathione, Vitamin C, electrolytes

Recover 360 - \$169.00

Focus on recovery following aggressive workout, illness, and overindulgence.

This IV is designed to soothe and rejuvenate on a cellular level. It combines antioxidants to detoxify the blood and cofactors that specifically restore energy production in the liver. These are combined with essential fluid and electrolytes as well as medications for headache, nausea,

Na or heartburn as N. C. C. Kneaded.

Vitamin B12, Thiamine, B Complex, Glutathione, electrolytes

Longevity and Vibrancy \$199.00

Focus on clearing cell damaging free radicals, cellular waste, and promotes glowing skin through collagen production.

Contains antioxidants targeted to the intracellular level, binds damaging free radicals, and eliminates them from your system. Higher glutathione dosing for anti-aging and glowing skin. Replaces depleted stores of essential vitamins and coenzymes while hydrating and providing, as needed, medications for headache, nausea, and heartburn.

Vitamin C, Glutathione, Thiamine, Vitamin B12, B Complex, electrolytes
